I understand that both my responses to the question of my conviction history and my references will be checked. Also, that a background check may be performed upon me. I give the VP MINISTRIES permission to ask my references specific questions regarding my involvement in sexual misconduct and in child abuse or other personal conduct which would reflect my ability to be a positive representative of this ministry. I also give VP MINISTRIES permission to do background checks through the national and statewide registries for criminal activity.
